Informatics Engineering Student at Universitas Negeri Surabaya (UNESA) with hands-on experience in Network Engineering, System Administration, and Junior Web & Mobile Development using Laravel, Next.js, and Flutter. Familiar with Cisco, Mikrotik, and Linux environments. Strong team player with good project management skills and fast problem-solving abilities.

Tingkat pendidikan

Universitas Negeri Surabaya - Surabaya, Indonesia. Aug 2023 - Jul 2025

Bachelor of INFORMATION TECHNOLOGY EDUCATION, 3.86/4.00

- Earned LKMM-TD (Basic Level Student Management Skills Training) Certification – Informatics, 2024, demonstrating foundational competencies in leadership, communication, and management.
- Completed LKMM Pre-TD Certification as an initial stage in managerial and organizational skill development.
- Served as an Organizing Committee Member for LKMM-TD Informatics 2025, contributing to event planning, coordination, and execution.

SMKN 1 PUNGGING - Mojokerto, Indonesia. Jun 2021 - Apr 2023

Sekolah Menengah Kejuruan Teknik Komputer dan Jaringan, 85.54/100.00

- Participated in the AtswaNesa Competition, focusing on Cisco-based Networking and Technology Competencies.
- Competed in the Capture The Flag (CTF) category at the ARA IT Challenge organized by Institut Teknologi Sepuluh Nopember (ITS).

Pengalaman kerja

CV Future Solution - Sidoarjo Jul 2022 - Nov 2022

Network Engineering

- Served as Head of Network Division at CV Future Solution during the internship period.
- Contributed to approximately 80% of total network infrastructure deployment across assigned projects.
- Designed and implemented Point-to-Point (PtP) and Point-to-Multipoint (PtMP) network architectures using TP-Link Pharos and Ubiquiti LiteBeam devices.
- Achieved a 98% network troubleshooting success rate, ensuring stable and reliable connectivity for end users.

SMKN 1 PUNGGING - Mojokerto Jan 2021 - Apr 2023

Student IT Technician

- Designed and implemented a Fiber Optic-based network infrastructure using HTB (Hierarchical Token Bucket), achieving 100% operational readiness.
- Troubleshoot and resolved internal network and hardware issues, including computers, printers, access points, and routers.
- Designed and enforced room-based bandwidth management policies to optimize network performance and fair bandwidth distribution.

SMKN 1 MOJOANYAR - Mojokerto Jan 2023 - Oct 2023

Student Network Engineer

- Designed and built a fiber-optic-based network infrastructure at SMKN 1 Mojoanyar from initial planning to 100% operational deployment.
- Successfully delivered stable and reliable connectivity for over 600 students, supporting learning activities and digital services.
- Performed installation, configuration, and optimization of 19 Ubiquiti UniFi Access Points, ensuring even network distribution and consistent coverage across the entire school area.

Dinas Perhubungan Kota Surabaya - Surabaya Aug 2025 - Dec 2025

IT Support (Intern)

- Developed a Bus Stop Management Website to manage and monitor bus stop data (<https://halte.dishubsurabaya.info/>)
- Created a Customer Short ID & ID Standardization System to improve data accuracy and efficiency (<https://idpelcektebaru.vercel.app/>)
- Completed internship program with Grade A (Excellent)

SDN KEDUNGUNGAL - Mojokerto Jun 2025 - Present

Extrakurikuler Teacher

- Developed coding learning modules for elementary school students (Grades 3–5) using Scratch as an introductory programming platform.
- Delivered hands-on coding instruction, guiding students through practical Scratch projects to build fundamental computational thinking and problem-

solving skills.

- Achieved an average 60% learning progress per student in Scratch-based programming concepts during the instructional period.

Pengalaman organisasi

Student Council of SMKN 1 PUNGGING - Mojokerto

Jan 2021 - Feb 2022

Head of Section 9 (Information and Communication Technology)

- Designed and implemented ICT-focused work programs, including bulletin digitalization and Instagram content management, to enhance organizational visibility and digital presence.
- Served as Project Lead (Chief Organizer) for Arkasi Campus Fair, successfully leading all phases from planning, coordination, to event execution.

Network IT CLUB - Mojokerto

Jan 2021 - Feb 2023

Mentor

- Served as a Mentor/Instructor in the Network IT Club, focusing on computer hardware, networking, and ICT fundamentals.
- Delivered regular technical mentoring sessions to strengthen members' understanding of IT concepts and hands-on practices.
- Initiated and established skill-based divisions, enabling members to develop according to their interests and technical competencies.

Information Technology Education Study Program Student Association - Surabaya

Feb 2025 - Present

Head of Research and Technology Reasoning Division

- Initiated and developed a Cisco Networking Competition plan for Vocational High Schools (SMK) across East Java, targeting participation from 20+ schools.
- Led the planning and execution of strategic programs supporting research and knowledge development in the field of Information and Communication Technology (ICT).

Keterampilan, Prestasi & Pengalaman Lainnya

- **Soft Skills:** Critical Thinking, Public Speaking, Teamwork, Problem Solving
- **Hard Skills** 🌀: Flutter, JavaScript, PHP, Laravel, NextJS, Bootstrap, MYSQL, VMware, Virtualbox, GNS, VirtualBasic, Cisco, Mikrotik, Unifi, Network hardware operation.
- **Bootcamp:** Basic Mikrotik Configuration Training in the Gresik Mikrotik community.
